

ART IN EVERYTHING

Being creators of art ourselves,
we cater to design connoisseurs
around the globe.

Consequently, our bathroom
products are not only designed
to surpass the highest
standards of luxury, quality,
and perfection but also seek
inspiration from high art ranging
across forms, time, and borders.

WHERE ART MEETS TECHNOLOGY

While an eye-catching piece of art does seem like the ideal way to add character to your bathroom, why should your bath fittings be any less than works of art? Beauty and functionality mingle at every turn in each Artize offering.

The result - an elevated bathroom experience where art and technology co-exist.

Replica of Trojan Horse - Canakkale Waterfront - Dardanelles - Turkey

Photo by Peyton on Unsplash

The image features two abstract, elongated human figures in a dynamic, dancing pose against a soft, orange-hued sunset sky. The figures are rendered in a dark, matte finish, with long, slender limbs and rounded, featureless heads. One figure is in the foreground, leaning back with its right arm raised high, while the other is behind it, also in a similar pose. The overall composition is minimalist and evocative of modernist sculpture.

MEET THE ARTISTS

Artize products are conceived by globally renowned designers who use Artize's 'craftsmanship' approach to create objects rooted in nature and top-notch design sensibility.

MICHAEL FOLEY

LISA BOSI

CLAUDIA DANELON

PARICHAY MEHRA

WINNING DESIGNS, WORLDWIDE

Our craftsmanship-centric philosophy has helped us win a number of accolades, including the prestigious Red Dot, Good Design and iF design awards, among others.

COLOUR IN ART

The role of colours in any form of art moves way past aesthetic fulfillment. A foremost dictator of mood, colour possesses the power to communicate feelings of happiness, sadness and the entire spectrum of emotions in between. Its role in any work of art cannot be undermined. This includes Artize's artisanal creations that come in varied Colour Finishes to help one feel further connected to their bath space.

ARTIZE SIGNATURE

The innovative, fluid, almost-sculptural pieces that define the Signature Collection remain unparalleled in their design and temperament alike. Bring home a slice of revolutionary contemporary art born of iconic artistic endeavours such as Art Deco-inspired minimalism and ancient Japanese pottery. Signature is bathroom luxury at its most opulent.

ARTIZE SELECT

Bold yet elegant, futuristic yet rooted in tradition, the Artize Select collection never fails to catch one's eye. Inspired by groundbreaking art movements, from the Dutch De Stijl to the Russian avant-garde, each creation in this diverse line is the epitome of form-meets-function.

TAILWATER

Photo by Riccardo Oliva on Unsplash

Echoing the sinuous form of a bird perched on the edge of a pool, the Tailwater captures the graceful elegance found in the natural world. The allusion to the ancient Japanese art of folding paper, origami, and the iconic crane motif lend another layer of meaning to the groundbreaking design.

TAILWATER

Tailwater | Faucets

Inspired by nature and the elegant, fluid lines of contemporary architecture, Tailwater is a striking and iconic piece of bathroom fitting – a new, minimalist design classic. A zoomorphic, abstract image of a bird, perched on the edge of a pool, it is a beautifully engineered piece of industrial design.

CONFLUENCE

Proun 4 B - El Lissitzky - wikiaart.org | Public Domain

Much like its name, the oil on canvas Proun 4 B weaved into this range's arrangement is a 'confluence' of strong vertical and horizontal elements, created by Russian suprematist artist El Lissitzky. Confluence's biomorphic design channels the Zen energy of water streaming through a half-cut bamboo reed.

CONFLUENCE

For line
drawing refer
Pgs no. 239-244

Confluence

Quiet and harmony envelop the space around Confluence, a biomorphic design, and zen mystery of natural inspiration. Like a reed of bamboo that channels water from rivers and brooks to pour it into a gentle, private stream, it calms and relaxes.

“Biomorphic design that delivers a Zen-like waterfall flow into your palms; a perfectly serene stream from the half-cut-bamboo style faucet.”

TUMBLE RAIN

Illustration du designer Ayushi Teotia

Peak summer.

The sun at its zenith.

The welcome embrace of cool water. With Tumble Rain by Artize, rediscover the simpler pleasures of a bucket bath. Relive the memories of the bathing ritual as a wave of water washes over you, a moment poignantly captured in this minimal illustration by designer Ayushi Teotia.

TUMBLE RAIN

Rediscover the thrill of bucket baths!

TumbleRain has been carefully engineered to automate the entire effort involved in bucket baths. Simply set or mix the water temperature to your preference and use the diverter's on and off controls. The high-mounted 'bucket' fills automatically every few seconds and empties itself dramatically over you.

Technology brings back a simple joy

- Automated Tumbling
- No Scaling
- No Water Deposit
- No Bacteria
- A Green Product

SHOWERTRONIC

Composition VI Theo Van Doesburg, Public Domain, Via Wikimedia Commons

A highly intelligent composition is exemplified in this equally intelligent, touch-based water-mixer system. With its state-of-the-art intelligent control software, Showertronic pays homage to the futuristic sculptures and installations of one of the world's most celebrated contemporary artists, Yayoi Kusama.

SHOWERTRONIC

The Advantage of Showertronic's Technology

For delivering water at the desired flow rate and temperature, ArtizeShowerTronic offers several key advantages over other systems - advantages that come from being an Intelligent Valve Sensor System.

No cartridges: no small electric motors or other similar parts that need to be recalibrated or replaced. It runs on intelligent software.

Handles differential pressures: even up to 5 Bar, between hot and cold water inputs.

High-precision sensors: to check water flow rate and temperature every 50 milliseconds for instant control and cut-off, if require

Safety: low voltage (12V DC) compliance for wet areas.

PIEZO-ELECTRIC
TECHNOLOGY

Durability: great for continuous use thanks to the absence of friction, IP 54 components, and piezo-electric technology – which makes it India's first reliable, fully electronic thermostat.

Available colour :

CHR

I-Touch

An electronic touch interface based on piezo technology, the i-touch consists of different laminated layers, making it extremely robust, resistant and long-lasting with a high level of user-friendliness. The interface controls the shower flow rate and temperature, enables the water outputs desired by the user and executes the CPU's smart programs such as the start-up program, clean-up program, thermal disinfection program or warm up program.

CPU iV6 / 6 outs

Smart electronic device with digital reading and accurate, stable, thermostatic regulation of water temperature and flow rate at the consumption terminals. Designed to be integrated in showers, columns, cabins or bath areas.

Power Supply System

The system comprises of 12V DC power supply, a battery backup in case of lack of network voltage and a voltage peaks protection. Batteries are charged with the usual power supply, ensuring that they are always correctly loaded.

THE FLANK LEVER RANGE

Straight lines,
precise curves, and
no ostentation.

The Flank Lever Range
quartet featuring Angelo,
Leone, Travina, Kavalier
and Esplenda, hosts
characteristics typical
of De Stijl, Dutch for
'The Style'.

The revolutionary
movement in abstract art
kept only what was
necessary and nothing
that was superfluous -
a philosophy echoed in
the striking, bold, and
dramatic contours of
this range.

LE BLANC

wikiaart.org/en/laszlo-moholy-nagy/untitled - Public domain

Precise yet asymmetrical, Le Blanc follows closely in the footsteps of Constructivism ideals, which apart from influencing artists in its own era, also highly influenced proponents of the Bauhaus and De Stijl movements. Hungarian painter and photographer Laszlo Moholy-Nagy's Untitled work speaks to his love of Constructivism and subtly runs through Le Blanc's sharp edges.

SIGNAC

Photo by Logan Troxel on Unsplash

Elongated silhouettes and arched fittings define Signac's nature-inspired offerings. This trademark visual language can also be found halfway across the world, in the magnificent Gateway Arch monument of Missouri, United States that holds references to several constructivist motifs.

Still Life by Paul Cézanne | Photo credit: National Gallery of Norway | commons.wikimedia.org/wiki/File:Paul_C%C3%A9zanne_-_Still_life_-_Google_Art_Project.jpg

A still life painting by the Impressionist master Paul Cézanne offers a lesson in observing. The gradation in hues. The three-dimensionality of objects. Their careful placement. Kitchen faucet by Artize aspires to a similar aesthetic precision, and aims at delivering joy with its calibrated form. Use it to know it.

An ode to Japanese minimalism, the Wellness range by Artize, which includes bath tubs, steam cabins, whirlpool and the spa, will give you a rejuvenating experience, reminding you of a serene masterpiece such as Fish in a Whirlpool by Kawanabe Kyōsai. Wellness Range by Artize: where ergonomics meets water therapy.

Bringing together
stunning craftsmanship
and elegant curved
forms, the Artize Plus
collection offers luxury
of a bygone era, like the
famed Iznik pottery of
Turkey, in a cutting-edge
modern format.
The refreshing colour
palette will make
it the focal point of
any room.
