FOLLOWING
your heart

Learn to live in a simple way and don't let complicated thoughts spoil the sweetness of life. —Milton, English poet.

Simplicity is a way of life. Life choices are simple. It means simplicity, transparency, innocence and gratitude.

Simple life, it expresses your true self, life goals after careful consideration. The life with a clear meaning, is a rich, healthy, harmonious and leisurely life.

EMPOLO

Eliminate the chaos and interference in the pace of modern society; Put simplicity throughout daily home life, more and more arranging life to be healthy and pure, grateful and simple, live your own easily and happily.

EMPOLO bathroom

Quality, morality, and art are invested in it, attentively reflect the ingenuity of the product, the rigorous soul of precision, Moved every time you use, warm every one of you.

HEALTH IS A CONDITION of wisdom and

A sign of happiness

EMPOLO sanitary ware provides simple, healthy and quality life to consumers around the world. Foshan EMPOLO Building Materials Co., Ltd. was founded in 2003, which integrates R&D, production and sales of integrated sanitary ware; has full-automatic polishing machine, grinding machine, automatic electroplating production line, low-pressure casting, gravity casting and other cutting-edge sanitary equipments and testing technology. Adhering to the concept of 'scientific design, meticulous work, continuous improvement, and customer satisfaction', we develop all-copper faucets, high-quality hardware bathroom accessories, high-grade showers, basins, bathroom cabinets, bathtubs and toilets, etc., with German quality, simple and practical design, fusion of nature, humanities and aesthetics.

EMPOLO Sanitary Ware's global business strategy, electronic network direct sales, diversified and systematic channels, promote the brand development by leaps and bounds, truly let cons umers fully experience 'moved by heart' in a comprehensive service experience. The charm of the world brand.

GERMAN DESIGN

German quality, the definition of life value. Ingenuity, the interpretation of product's value.

EMPOLO insists on a fixed brand concept of flawless structure preciseness and excellent quality by integrating the element of German minimalism and Chinese low key and this forms EMPOLO's unique style.

The designers pay attention to refining EMPOLO's sincere wish to the end users and put it into the product design. Simpleness and praticability are both taken into consideration to creat outstanding applicability and usability, for an upgrate of space aesthetics, to bring the end users ultimate comforts.

GORGEOUS IS OFTEN accompanied by greatness

And luck more often comes from simplicity

The simplicity that EMPOLO follows is to devote all the minimalist designs. The color texture, lines and outlines of each product are concise and smooth, and the structure is clear. Each product is simple, happy, rich, creative, but not simple at all. The days I work under the spotlight, is a small part of life. The life I follow is actually very simple. I cook quietly, enjoy the food slowly, do what I want to do, and create my own poetry and distance. Simplify complicates things, removes the burden of life, and permeates simplicity into a porridge, a meal, a cat and a dog, every word and action, warm and down-to-earth, which is the way to yearn for life.

THE SIMPLICITY
of following

Happy and rich

SPACE RETURNS to simplicity

Touches new life

Remove the superfluous, let the space return to simplicity; simple touch makes every moment softer, more enjoyable and better. EMPOLO, design and nature eclectic, immersed in comfortable, quiet, relaxing music, bathing water... wash away the hesitation, and refresh you.

From 9:00 AM to 5:00 PM, Monday to Friday working non-stop in the modern city decorated with reinforced concrete, tall buildings, is the life to be for an elite white-collar worker. Although big cities are crowded and busy, we still can pursue pleasure and create a new smart life.

I like to go back to the real and simple state on rest days when I want to shuttle on the road, use the locomotive to measure the earth, enjoy the feeling of 'on the road', and feel the nature in the breeze. Such simplicity and beauty are the living conditions that every urbanite yearns for.

SIMPLIFY THE EXTERIOR

ingenuity art

Simplified Energy Photography-Michael Kenner The insight is deeply condensed and show much more expressiveness, passion and sensitivity, making the scenery self-improverment and complete. The water, clouds and fog exposed by the lens not only simplify the picture, but also bring the lingering beauty of the East.

Simplify external thoughts and use space cleverly. EMPOLO, as one of the sanitary ware worlds, being simpler and simpler, building quality beauty, deeper relaxation, vitality and self-confidence, has become a fine art.

As a professional photographer, I press the shutter for business; most of my thoughts are spent on things related to the photography business. In fact, I am more in love with the essence of photography. Photography is recording, presentation, and art. Art comes from life and is higher than life. In life, if you like to make life simpler, you will have the energy to discover what people really want in photography. Simplify the unnecessary of life, let the room have more space, and let the life exude a kind of vitality that has a strong penetrating power all the time.

QUALITY INGENUITY

grace like water

If you are grateful for life, life will bestow you with bright sunshine; the founder of EMPOLO Sanitary Ware, Mr. Fan has an extraordinary understanding of happiness. Happiness is to have a grateful heart, a healthy body, a satisfactory job, a family who loves you deeply, and a bunch of trusted friends.

In 2003, Mr. Fan was uncomfortable with the status quo. He saw that the sanitary ware market was flooded with inferior products. He hoped to create a quality brand, challenged himself to give back to the society, and make people affordable, quality and practical! In the initial stage, Mr. Fan has been doing his own business, starting a business with gratitude, sharing in the business, and putting it into action.

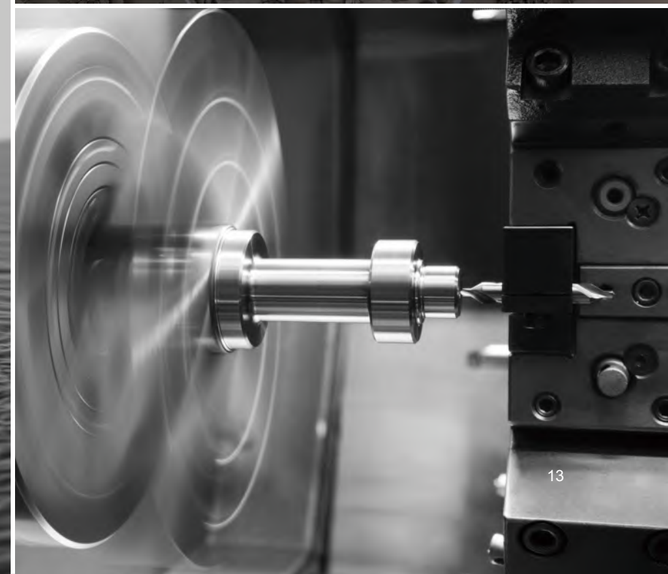

The 2008 economic crisis and the reorganization of the industry survived the fittest which let him think more deeply. He occupied the market with hardware faucets, showers, and bathroom cabinets as single products. He focused on bathroom life and gradually responded to the market's one-stop customization needs. He enriched his product line and added baths, toilets and other integrated bathroom accessories. For more stable development.

EMPOLO Sanitary Ware has always been adhering to the German value, strict quality, optimized materials, and combining simple artistic aesthetics to create a simple, comfortable, environmental-friendly and healthy quality living space for consumers around the world. EMPOLO Sanitary Ware is getting better and better with the right direction!

GERMAN DESIGN
practical quality of life

From Germany to the world, from China to the world EMPOLO has been practicing practical quality, carrying the original intention of German design value, pursuing the value of the 'essential' of the product with unparalleled rigor and excellence, expressing the product function and the art of building materials with 'cleanliness'.

MEDITERRANEAN SUNSHINE

use your kindness
to be yourself

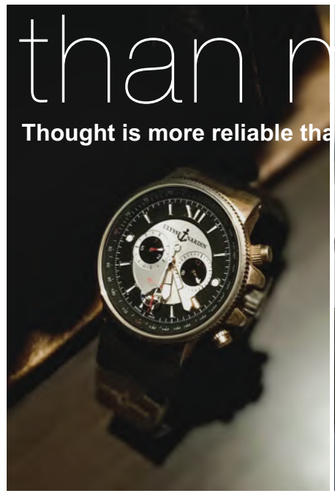

This is a Mediterranean living space that fully magnifies the Sunshine Coast. It is calm and unconstrained. With arms outstretched, it seems as if the sun is blowing comfortably and uniquely, and the sea and sky are the same color and bathe in the sun.

REASON IS HIGHER

than mind

Thought is more reliable than emotion

those who BEHAVE kindly

And noblely will be able to bear adversity because of it

The golden iron art, the open and flat structure exudes simple beauty. The romantic feeling of the azure cabinet is a yearning for freedom. It simplifies materials, elements, colors and lighting to a minimum, and slows down the rhythm in every detail, soft and comfortable .

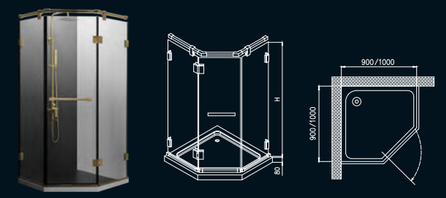

MANKIND LOSES imagination

What will happen to the world

YEARNING
LIFE

the beauty of life lies in pursuit

The beauty of life lies in discovery

This is a Nordic living space full of sentiment and simple fun, putting complex items aside, simplifying the needs of life, no more, no less; The simple cabinet body carries fragrance, natural and fresh, revealing the original texture and color. The cabinet contains a book and a glass of wine; it is the beauty of the longing.

perfect COMBINATION of space

and storage
meet a better self every day

persist in MAKING THE ordinary great

When you walk in, whether you take a shower or a bubble bath, when all your pores are opened, you breathe in and out, it is the original ecological breath, let the body slowly relax, full of positive energy! I got enough happiness in the ordinary.

BLACK
GENTLEMAN

on the scale
of degrees

Introversion and publicity are compatible

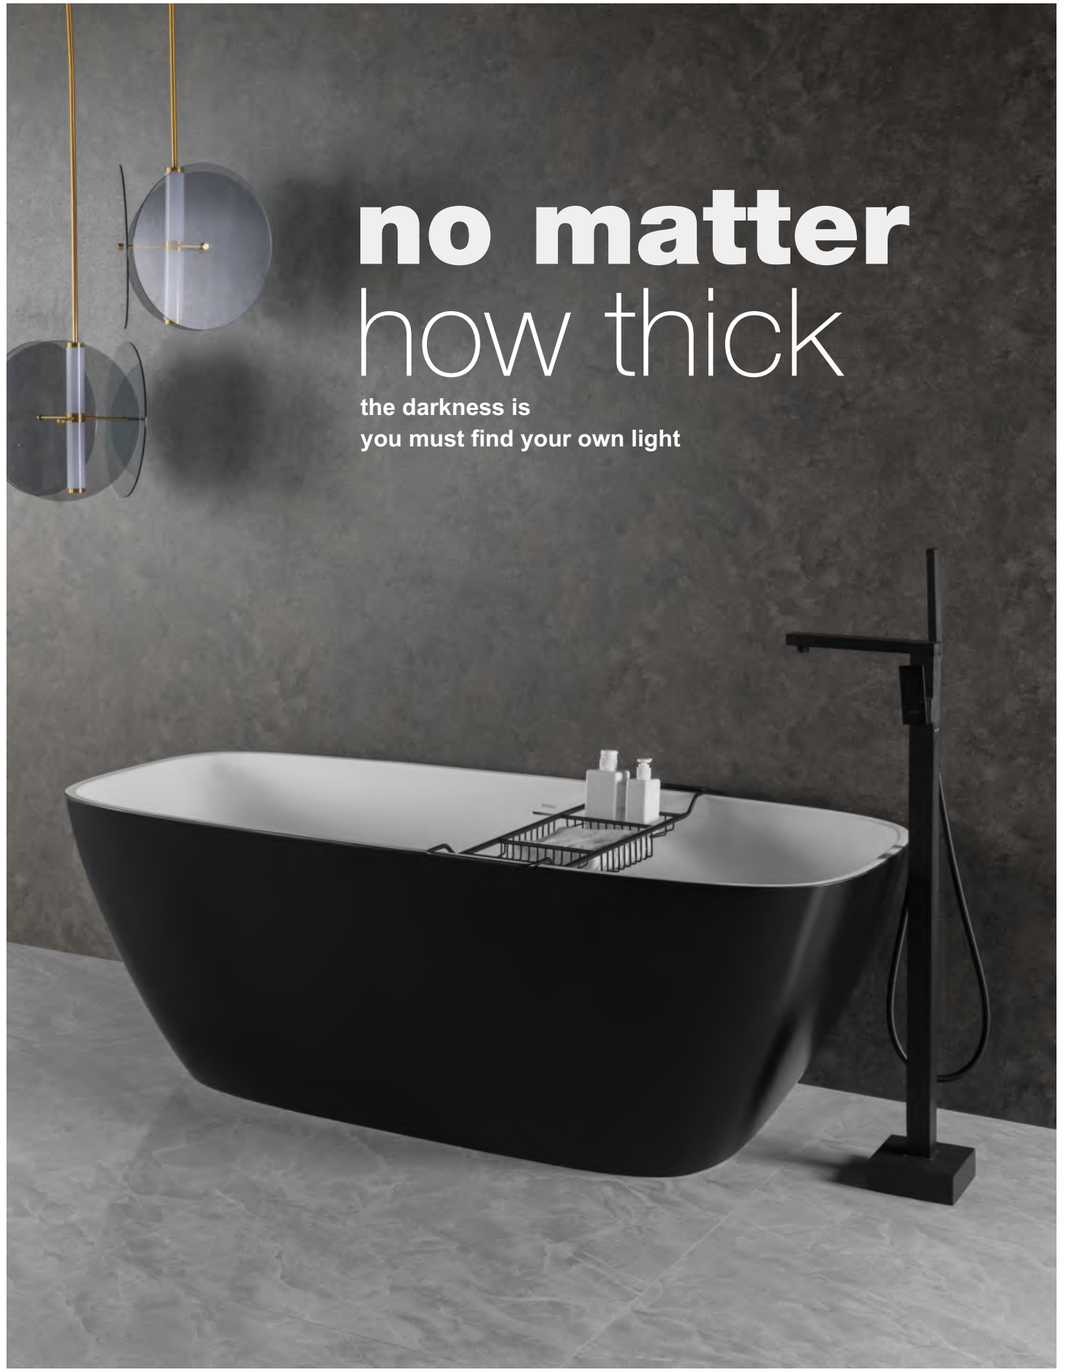

This is a very tasteful gentleman's living space, deep, noble, temperament, and imaginative. Stereotypes are not the first impression, the connotation gentleman is the true face; the simple pure color seems to have eternal effect, quietly guards the true thoughts in the heart.

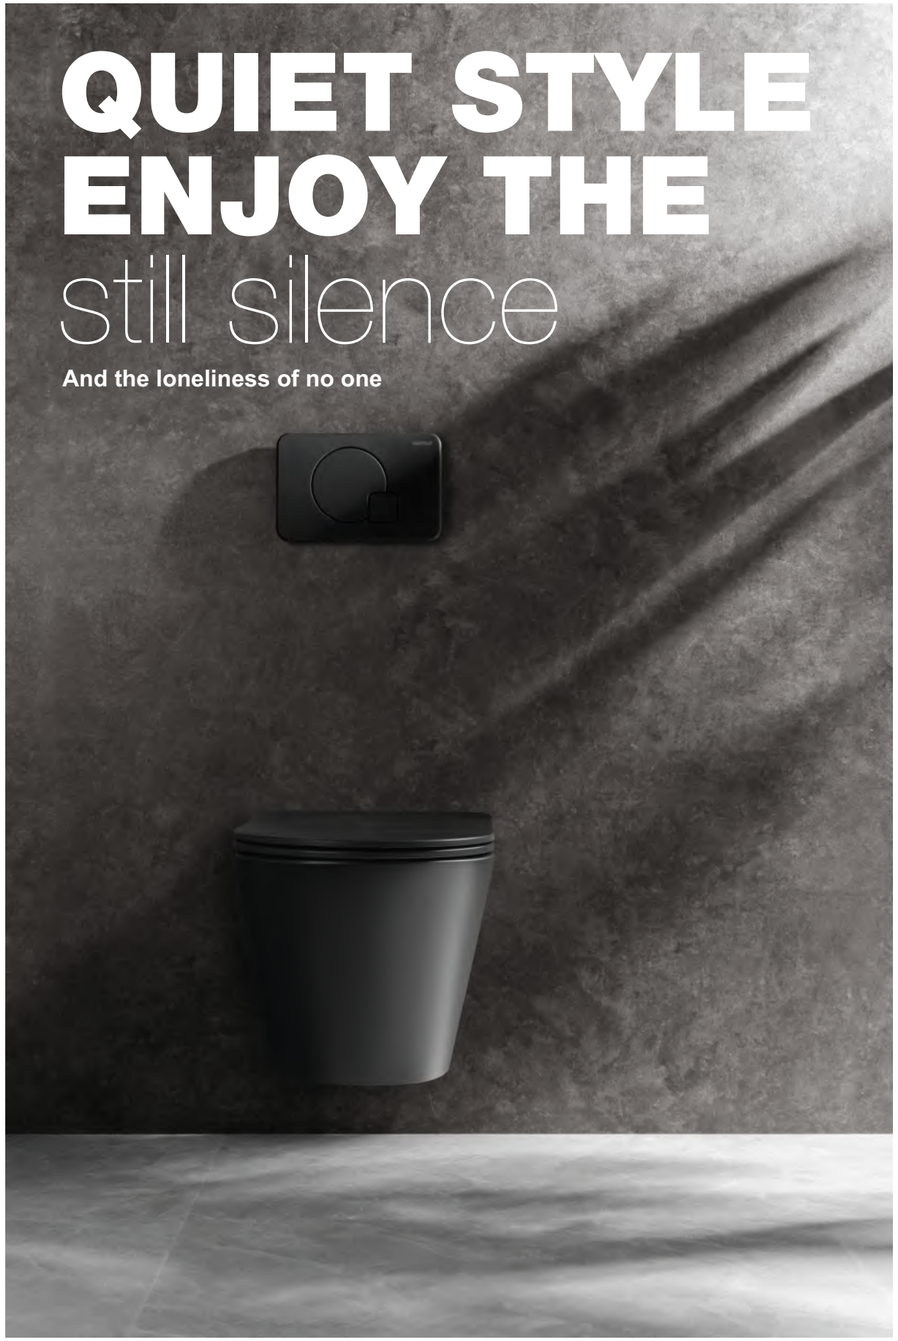

The black and white combination in the bathroom shows no traces of design, as if every object is born harmoniously and elegantly into one, without redundancy or shortcomings, but new with time.

Family size has nothing to do with happiness, love for family members always like to hide, but every love is collected meticulously; EMPOLO cabinets family life, explore more space, storage art at this moment, can infinitely magnify happiness and happiness.

THE NIGHT GAVE ME black eyes

But i use them to find light

INTELLIGENT COMFORTABLE HEALTHIER

IMPORTED SOLID WOOD, FRESH AND NATURAL

Imported materials, multi-layer solid wood panels, tough and gorgeous texture, long-lasting modeling, but not luxurious, return to the natural feeling of the forest.

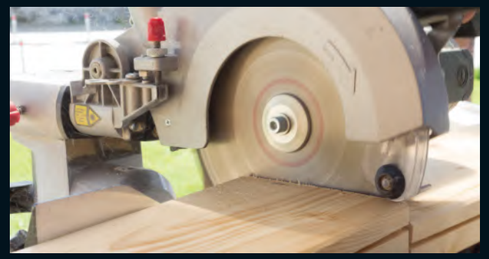

EXCELLENT ACCESSORIES, QUIET AND SMOOTH

Damping buffer hinge, 200,000 times of cabinet door movement, quiet opening and closing, noise reduction to a minimum, smooth opening and closing.

GELCOAT ARTIFICIAL STONE BASIN, FRESH AND BEAUTIFUL

The industry's first gelcoat artificial stone basin, 5 hand polished, natural beauty, simplicity and exquisiteness.

WATERPROOF TECHNOLOGY, IN CASE OF WETNESS

After 13 paint processes, seven polishes, four primers, and two topcoats, the surface is completely waterproof, and there is no worry about damp spaces.

DISASSEMBLY AND ASSEMBLY STRUCTURE, STABLE AND WORRY-FREE

It adopts 3 in 1 disassembly and assembly structure, hidden counterbore and screws, and connects each part steadily, which is durable.

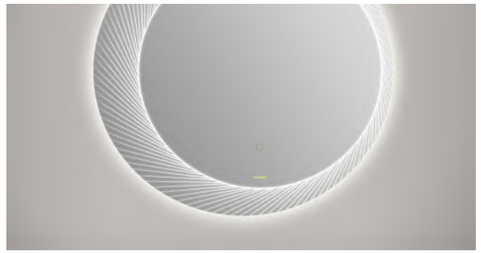

BRAND PAINT, HEALTHY AND ENVIRONMENTALLY FRIENDLY

6 baking processes, 360° full coverage, high-quality brands, low-formaldehyde and environmental protection, you can enjoy freely.

LARGE-CAPACITY STORAGE, NEAT AND ORDERLY

Large-capacity cabinet with storage compartment function is added, which is convenient for storing various daily necessities, and the storage is neat and orderly.

ENVIRONMENTAL PROTECTION SILVER MIRROR, HENGBAO AS ALWAYS

All products use branded lenses, no silver loss, no deformation, and a 10-year warranty. Say goodbye to Haha mirrors.

THE NIGHT
will cover up

But it won't block the splendor of neon

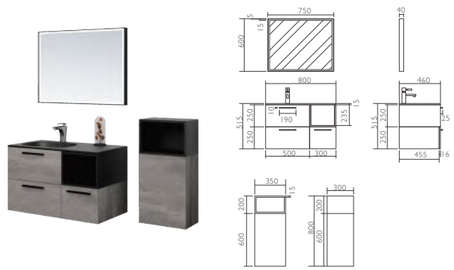

A bathroom cabinet designed for urban night music;
The night view of the city under the curtain of night is beautiful and the air is very comfortable. If you want to know more about it, you can calm down and see what it looks like in the middle of the night; the black cabinet with one countertop, I don't know where it is in the middle of the night, bringing me closer to the city and nature. I feel that Fashionable atmosphere.

CHERISH
all the unexpected encounters

Look down on everything and leave without saying goodbye

A bathroom cabinet with good storage.
Witnessing the time when the stars rise on the morning of the family day, collecting the face of grandmother's life, and keeping the mother's youthful tremor to his father; and we see inches of time gathering on the annual rings above, which are brown natural wood grain interface, gifted by the years wonderful.

THE DEPTH

and calmness of black

Never outdated

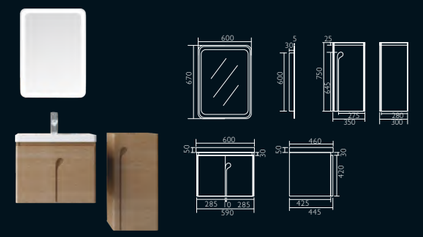

A bathroom cabinet for adding and subtracting mood. I always like to clean up on weekends, put aside my work and organize my heart; three-part lockers, return the fragments of life, do the subtraction of life, but also add to life, clean and refreshing bathrooms, smiles are always appearing unconsciously.

FOLLOWING
your heart

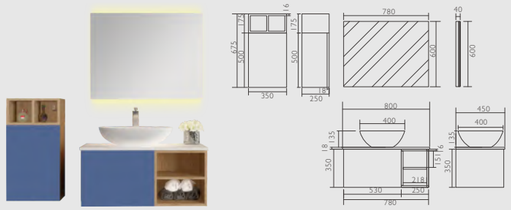

A bathroom cabinet with a heart-to-heart collection. The encounter at first sight was nervous and flustered; the open cabinet made me feel relieved and convenient, and I dressed up in front of the mirror more calmly. It is the encounter of each other that makes the rounded goose-egg-shaped washbasin adding sweetness to the maturity of the deep Mars green.

moved by
the moment
OF LIFE

Grateful for the beauty of life

Time is always not enough, but in the pure and simple bathroom space, you can sit and enjoy a good time every moment; water moves the mood with its broadness, clarity, and power, washing the life of trivial matters, and full of freedom and vitality.

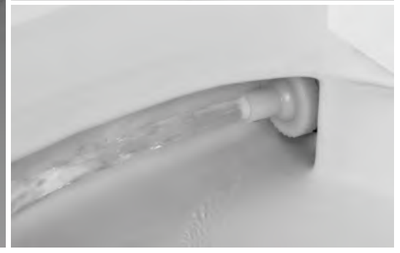

SMART
COMFORTABLE
and healthier

Cleaning function

Buttocks wash

Bubble warm water, super rhythmic, fully clean, leaving no residue.

Women's wash

Gentle water wave, gentle cleaning, comprehensive consideration for women, better care for special days.

Reciprocating cleaning

The cleaning position can be adjusted forward and backward at will, and the cleaning is more comprehensive.

Mobile cleaning

The retractable nozzle expands the cleaning area to achieve the best cleaning effect.

Massage cleaning

Adjust the strength of water flow, the change of bubble strength, promote blood circulation, and play a massage role.

Child cleaning

Gentle rinse water power, considerate water temperature, care for delicate skin.

Mixed gas cleaning

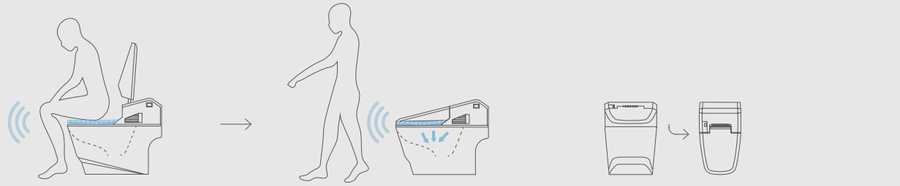

The mixed air pulse softens the water flow and flushes more cleanly.

Water pressure adjustment

When cleaning, the strength can be adjusted according to the needs to achieve the desired cleaning effect.

SMART
COMFORTABLE
and healthier

User-friendly Design

A sensor system is installed on the product seat ring, which automatically senses during use.

Even if the user forgets, it can be rinsed automatically.

Unique 'automatic flushing', 'automatic deodorization' and a series of automatic sensor functions, can be described as artificial intelligence products.

Soft night light

There is no need to turn on other lighting at night, and the built-in soft tank gleam can realize convenient toileting.

Self-cleaning nozzle

The automatic spray point removes bacteria water, cleans and sterilizes the nozzle and the inner wall of the toilet.

Seat heating

Intelligent constant temperature seat, no need to wait, you can also enjoy the warmth like spring comfort in the cold winter.

Warm air drying

The warm and hot air restores dryness and comfort to the buttocks.

Temperature control

Provides multiple temperature settings, and can set the three temperatures of seat ring, washing and warm air drying according to habits.

Automatic deodorization

After the peculiar smell in the toilet is decomposed by the cold catalyst odorizer, fresh air is released.

Auto-sensing

The human body automatically senses, and the whole machine is placed in a standby state. The inductive switch is invalid without working function to avoid misoperation.

Wireless remote control

Wireless remote control, easy to operate the toilet in the whole process.

learn to smile
AND WARM
each other's
HEARTS

I like to stay in a clean bathroom space and listen to the flowing water, translucent, clear, and gentle; in the city of desire, always warm the soul struggling alone in time; choose an upward lifestyle, pragmatic, ordinary and happy.

THE SKY
full of stars

do your best to fuse the bits and pieces of light together

Warm air drying

Seat ring heating

toilet with watermark
we can remember

In this independent space, you can think and entertain yourself as much as you want...
Simple and artistic, at a glance, the simple and elegant toilet touches the details of the soul and carries all the dreams of home.

ceramic swatch

product ADVANTAGES

High-performance water-saving technology

The traditional 6L toilet is upgraded to 4.2L / 6L super water-saving type. This product can save 10,000L per year for an ordinary family of three (compared to a single-stage 6L toilet)

Large pipe diameter net discharge

The inner diameter of the pipe is increased to more than 50mm. Exceed the industry standard, strengthen the water flow, and make the sewage discharge smoother. After the glaze is applied, the inside of the pipe is smooth, which avoids the clogging of dirt.

Double glazed

The glaze forms an ultra-fine level and smooth surface, which eliminates the voids that hide dirt and forms a separation wall. The ionic force layer produces a rebound effect, which completely eliminates the adhesion of dirt.

Brand waterware

Adopting brand devices, the service life is more than 100,000 times, the drain valve body can be freely selected, dual-stage draining, water saving and environmental protection, the drain valve has high, medium and low configuration options.

Super vortex

Jet vortex water flow, 'silent' and 'super' flushing power, can be thoroughly cleaned.

Separate waterway

Separate waterway design and use of high-quality corrosion-resistant silicone seals instead of traditional flaps, good sealability eliminates the hidden danger of water leakage, and the flushing is stronger than traditional toilets to avoid clogging.

55mm water seal

After flushing, the remaining water seal reaches more than 55mm, forming an isolation belt, which effectively separates the malodorous gas.

Urea formaldehyde ultra-thin cover plate

Imported urea-formaldehyde material configuration, wear-resistant and compressive, durable, humanized anti-static design, more secure, efficient and quiet.

Low water absorption technology

The water absorption rate of EMPOLO ceramic products: ⩽ 0.2%-0.3%, which is lower than the national and European standards ⩽ 0.5%.

Waterfall pressurization technology

The waterfall flushing high water tank design has strong momentum. The 3-inch drain valve increases the instantaneous drainage, which is 2.25 times the traditional.

Quick disassembly structure of cover plate

The metal hinge can be quickly disassembled in 1 second, and it is durable and easy to remove to clean the surface.

Gold shunt technology

30% scrubbing, 705 jetting, speed up siphoning and strengthen momentum.

WHEN
the world weighs

heavily on grass seeds
It always breaks through the ground in its own way

life can be poor
BUT YOU can't live

WITHOUT HAPPINESS

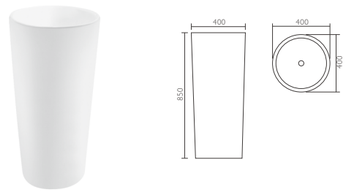

Water is a memorable thing, and it is also a natural thing that thinks more. About the memory of the wash basin, it is my mother's sentence: remember to wash your hands. It is a naive play with water and a beautiful childhood; it is a carrier of feeling love.

A GRACEFUL
and multi-poster wash basin

Strolling among the green hills and forests, the trees are under the wonderful shadow of the moon, showing a gentle posture. The one-piece wash basin with a post is charming, light and soft, and the whole space becomes so unique.

A WASH basin that bears

the ups and downs

Life is the wall of the heart that keeps erecting and opening the heart; and often removing the wall of the heart to awaken the beautiful life hidden in the heart is to wash off all the disguise in front of the wash basin. The three-dimensional square wash basin of the brand carries the truth, the ups and downs of life, also imperceptibly affect the affinity of you, and discover the original flavor of life.

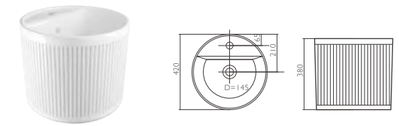

I AM WILLING TO LET GO

what I get is my self

SHOWER
ROOM

POLITENESS IS THE SPRING sowing coolness

coolness in summer

The crystal clear glass, filled with mint to cool, and the patter of water, calms the heart for a second, brings a bit of coolness, and makes the shower experience return to simple pleasure.

product advantages

Easy to clean, easier

The shower room has strong combing water and has a super cool and easy-to-clean effect. The contact angle between water droplets and the glass surface is 102 to 109 degrees, which is not stained with water, and it is easy and convenient to rinse with water.

Good durability

The glass surface forms a special high-silicon mesh structure, and the easy-to-clean function of the glass can be maintained for more than five years.

Good pressure resistance, safe and reliable

It can withstand high water pressure and is safe.

Anti-yellowing, lasting forever

EC technology eliminates direct contact between water and organic cleaning fluids and the glass surface, and stains and dirt fluids cannot penetrate into the glass, effectively organizing the glass's corrosion, aging, and yellowing process.

Pure material, green and environmental protection

Using the latest organic silicon polymer compound solvent, no preparation, blending, no heating, and no elements.

Strong temperature resistance

Strong temperature resistance, withstand temperature of -60°C~+380°C.

Anti-UV

The world's top EC technology, resistant to all wavelengths of ultraviolet light.

Antifouling and antibacterial

Optimized surface treatment can more effectively prevent dirt and bacteria and prolong cleaning time and service life.

A CALM AND INTIMATE
shower room like midsummer

The shade of green trees in the summer, the sudden warm and wind, the time slowed down, the rain and mist flow wrapped the body, melted throughout the summer, with a smile.

BATHTUB

SILVER IS
the most indifferent color

honest and noble

The beauty outside the window always sneaks into this pure bathroom space...

As a result, I fell in love with the bathtub inexplicably, staying longer and longer; not caring that the water temperature slowly cooling, just to meet unexpectedly...

PRODUCT ADVANTAGES

ACRYLIC TECHNOLOGY

Acrylic tub is a glass fiber reinforced plastic bathtub. The surface material is methyl propyl methyl ester, the opposite side covered with glass fiber, coated with special resin enhanced. Acrylic bathtub color uniform, smooth surface, no stratification and bubble phenomenon.

Air grade acrylic sheet, with good anti-fouling properties, that is easy to clean, is anti-bacteria, and the dense surface is not easy to be scratched and easy to maintain. Smooth surface, just like porcelain, and as flat as a mirror; the plane on the back is polished pattern, no warping surface, arc curvature standard, uniform thickness of the cylinder, light weight, strong and flexible.

Acrylic bathtub heat transfer performance is bad, so it has good heat preservation, even in the cold winter, the skin won't feel 'cold' when touchs the acrylic bathtub surface .

WATER FORCE MASSAGE TECHNOLOGY

Through a motor to drive the water inside the cylinder. According to the size of the cylinder assembly of different numbers of nozzles, the nozzle connected to the motor cycle hydraulic pressure output, resulting in strong and weak water pressure rhythm changes, to give people the body of local hydro massage effect and feelings. The whole process does not produce noise.

BUBBLE MASSAGE TECHNOLOGY

The use of air pump high pressure jet technology, the bathtub is a specific outlet bubble impact massage, like to enjoy the feeling of surfing bath, increase human comfort.

PRODUCT ADVANTAGES

WATER SHORTAGE PROTECTIVE DEVICE

The water protection device is a hydromassage bath for the induction device, the massage is above the massage water spray nozzle. Only when the water level in the bathtub is higher than the sensor does not have the motor, the motor will automatically start, start the massage operation, if the water level does not exceed the sensor motor will not start, to avoid the water level does not meet the requirements of the risk of dry motor, The safety of the motor to extend the life.

Y-SHAPED DRAINAGE SYSTEM

Bath pipe with Y-shaped pipe formed on the arch bending degree, the sewage under the action of gravity was over the arch pipe, through the arch up and down the pressure, the sewage was completely discharged from the bathtub, leaving no water.

BUBBLE MASSAGE TECHNOLOGY

Led magic color underwater system, sterilize the water in the tank.

USER FRIENDLY DESIGN

The inclination of the inner wall of the bathtub perfectly fits the back structure of the human body, and the 115° optimal lying position design makes the body release the pressure in absolute comfort.

life is sunny
IN THE EYES
of the four seasons

Simple is good

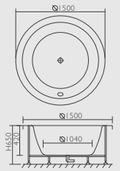

EMB01
MASSAGE BATHTUB

Size: 1500x1500x650mm
1800x1800x650mm

1) 1.5HP water pump
2) Support-stainless steel frame
3) Hydraulic massage
4) Whirlpool system
5) Adjustable water jets
6) Hand-held shower
7) Hot / cold faucet
8) Diverter handle
9) Under water LED light
10) Handle drain

More options:
1) Touch control panel
2) Air bubble 200W
3) 1KW Heater
4) Ozone
5) Water cleaning system

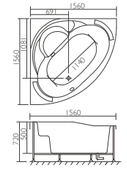

EMB02
MASSAGE BATHTUB

Size: 1560x1560x720mm

1) 1.5HP water pump
2) Support-stainless steel frame
3) Hydraulic massage
4) Whirlpool system
5) Adjustable water jets
6) Hand-held shower
7) Hot / cold faucet
8) Diverter handle
9) Under water LED light
10) Handle drain
11) Pillow and tempered glass front panel in clear color

More options:
1) Touch control panel
2) Air bubble 200W
3) 1KW Heater
4) Ozone
5) Water cleaning system

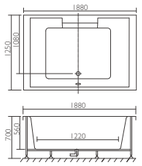

EMB04
MASSAGE BATHTUB

Size: 1880x1250x700mm

1) 1.5HP water pump
2) Support-stainless steel frame
3) Hydraulic massage
4) Whirlpool system
5) Adjustable water jets
6) Hand-held shower
7) Hot / cold faucet
8) Diverter handle
9) Under water LED light
10) Handle drain
11) Pillow
12) Available version: left or right

More options:
1) Touch control panel
2) Air bubble 200W
3) 1KW Heater
4) Ozone
5) Water cleaning system

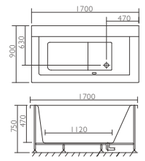

EMB05
MASSAGE BATHTUB

Size: 1700x900x750mm

1) 1.5HP water pump
2) Support-stainless steel frame
3) Hydraulic massage
4) Whirlpool system
5) Adjustable water jets
6) Hand-held shower
7) Hot / cold faucet
8) Diverter handle
